GRIT CHAMBER – HORIZONTAL SEDIMENTATION TANK REF: CHC – DES

Application:

- Removal of sand and other high density constituents by settling.

Characteristics:

- Salher brand, model CHC-DES.
- Manufactured in Glass Fiber Reinforced Polyester (GFRP) with orthophthalic resins.
- High grit settling efficiency due to increased settling area.
- Manual settled grit recovery through the manhole with GFRP cover.
- PVC inlet and outlet pipes.
- Outlet in the manhole to install a ventilation pipe.
- Optional: sand and solids level detection alarm.

CAPACITY [liters]	Ø [mm]	LENGTH [mm]	Ø MANHOLE [mm]	Ø PIPE [mm]	INLET [mm]	OUTLET [mm]
